

Metal Jacketed Gasket machine for DJ

HEROOS-M205 is Double Jacketed Gasket, sheet metal gasket production machines.

1. A shear good sheet metal into the machine forming the wheel and drive between the guide pulley to start the motor slowly forming round sheet metal pressed into the drive guide wheel.
2. ready-coated non-metallic filler: such as graphite, asbestos, glass fiber. Into forming the middle of a good sheet metal, and close the lid (the pre-cut sheet metal).
3. the plastic wheel with the repression of the drive guide wheel molding gasket called jacketed gaskets.

Select the configuration

1. Random with eight sets of mold: molding round of eight sets of eight sets of integer round
2. Other mold according to customer order.

TECHNICAL PARAMETERS

Model	HEROOS-M205
Coated shim thickness	1.5---8mm
Jacketed gaskets width	≤80mm
Maximum gasket diameter	4000mm
Minimum gasket diameter	150mm
Total Power	4kw
Motor Power	1.5kw
Voltage	380V/220V Optional
Line speed	0--150mm/s
Inverter controller	2.2G
Dimension	900*500*1200mm
Weight	200kg

No.14. Xianfang East Road, Xinjie , Zonghan, Cixi City, Ningbo, China 315301
