

Small CNC Spiral Wound Gasket Machine

This machine is used for processing 1/2" - 2" inner Spiral Wound Gasket, top and press wheel adopts pneumatic, the adjusting range of pressure, simple operation. Power servo motor, processing parameters jointly completed by the touch screen and PLC, realize the digital input parameters.

With the common winding machine compared with size without manual measurement, and has the advantages of reducing measurement error.

THE BASIC PARAMETERS

Model	HEROOS-M322H
voltage	~ 220V
Power	0.75KW
Net weight	300KG
Scope of application	1/2" - 2"
Length * width * height	110x 85 x158cm

No.14. Xianfang East Road, Xinjie , Zonghan, Cixi City, Ningbo, China 315301
